## Differential Equations - Equilibrium Solutions

[tutorial.math.lamar.edu/Classes/DE/EquilibriumSolutions.aspx](http://tutorial.math.lamar.edu/Classes/DE/EquilibriumSolutions.aspx)

If the equations are overlapping the text (they are probably all shifted downwards from where they should be) then you are probably using Internet Explorer 10 or ...

## Differential Equations - Series Solutions

[tutorial.math.lamar.edu/Classes/DE/SeriesSolutions.aspx](http://tutorial.math.lamar.edu/Classes/DE/SeriesSolutions.aspx)

If the equations are overlapping the text (they are probably all shifted downwards from where they should be) then you are probably using Internet Explorer 10 or ...

## S.O.S. Math - Differential Equations

[www.sosmath.com/diffeq/diffeq.html](http://www.sosmath.com/diffeq/diffeq.html)

Loading. S.O.S. Math on CD Sale! Only \$19.95. Works for PCs, Macs and Linux. Books We Like

## Differential Equations - IntMath

[www.intmath.com/differential-equations/des-intro.php](http://www.intmath.com/differential-equations/des-intro.php)

Differential Equations. Differential equations are a special type of integration problem. Here is a simple differential equation of the type that we met earlier in ...

## First and Second Order Differential Equations

[www.sosmath.com/tables/diffeq/diffeq.html](http://www.sosmath.com/tables/diffeq/diffeq.html)

First Order Differential equations. A first order differential equation is of the form: Linear Equations: The general general solution is given by

## Examples of differential equations - Wikipedia

[https://en.wikipedia.org/wiki/Examples\\_of\\_differential\\_equations](https://en.wikipedia.org/wiki/Examples_of_differential_equations)

A separable linear ordinary differential equation of the first order must be homogeneous and has the general form  $y' + p(x)y = q(x)$  where  $q(x)$  is some known function.

## 4 Ways to Solve Differential Equations - wikiHow

[www.wikihow.com/Solve-Differential-Equations](http://www.wikihow.com/Solve-Differential-Equations)

How to Solve Differential Equations. A full course in differential equations involves applications of derivatives to be studied after two or three semester courses in ...

## First order differential equations | Math | Khan Academy

<https://www.khanacademy.org/.../first-order-differential-equations>

Differential equations with only first derivatives. ... Exponential functions are described by differential equations of the general form  $dy/dx=ky$ , i.e. equations ...

## Partial differential equation - Wikipedia

[https://en.wikipedia.org/wiki/Partial\\_differential\\_equations](https://en.wikipedia.org/wiki/Partial_differential_equations)

In mathematics, a partial differential equation (PDE) is a differential equation that contains unknown multivariable functions and their partial derivatives.

## Differential Equations | Khan Academy

[www.khanacademy.org](http://www.khanacademy.org) > Math

How is a differential equation different from a regular one? Well, the solution is a function (or a class of functions), not a number. How do you like me now (that is ...
